## DC Downloader

You can manage your DC Account to enable automatic downloads.

#### **ENABLE DC Downloader for Program:**

Once you have installed the DC Downloader software, you will need to set up your DC Downloader with the filenames provided in the pop-up window for each segment. You can override the filename(s) to match your external ID in Zetta by typing over the text provided.

- The automatic download schedule for the Program is displayed in the green bar. This is the day/time the automatic download will occur each week.
- > You will then need to enable the Downloader:
- > Click on the Enable/Disable dropdown list, select Enable.
- ➤ Click Save.

# Dewnloader

If you wish to manually download a Program, you can manage your DC Account by disabling the automatic download of a Program.

#### **DISABLE DC Downloader for Program:**

- > Click on the Enable/Disable dropdown list, select Disable.
- Click Save.
- You will notice a red bar across the top of screen notifying you the DC Downloader is disabled.

\*Remember to click 'enable' if you wish to reactivate automatic downloads for the Program at a later date.
